

GREEN OLIVE FIREWOOD CO

PREMIUM FIREWOODS - NATURAL CHARCOALS - BIOCHAR COMPOST

NATURAL - ETHICAL - SUSTAINABLE

Our Story So far

Firewood is where it all started.

At Green Olive Firewood we manufacture and supply natural firewood logs and cooking charcoals of the highest quality.

We source our firewood from sustainably managed woodlands, ensuring it is dried and certified as Woodsure 'Ready To Burn'. Our cooking charcoal is produced ethically, with a focus on traceable origins. Quality is our top priority, and we were proud to be featured in The Independent Newspaper's Best Buy guide in both 2022 and 2023, where our professional charcoal was highlighted as the best BBQ charcoal in the UK.

In 2024, we introduced the Carbon Gro brand, offering a line of gardening and growing media products made from a byproduct of our charcoal production, Biochar that effectively captures carbon. Our biochar is mixed with green compost to create a planting compost that not only captures carbon but also provides moisture control and a slow release of nutrients for your plants.

Our Core Values

NATURAL - ETHICAL - SUSTAINABLE

- **Natural & chemical free materials**
- **Ethically produced using sustainable timber**
- **Environmentally minded packaging**
- **Ready to burn accreditation verifying our wood has been dried to 'clean air' standards, low emissions**
